

Douglas Agnew

My son started at The Langton in Sept 2019 in Yr7, and I became a parent governor shortly afterwards. This is my first and only governor role. As part of the overall responsibilities, I also joined the Resources committee, and after around 1 year, became the Chair of that committee due to the previous Chair retiring. This led onto becoming a member of the Simon Langton Schools Trust board.

I have completed various governor training courses to increase my understanding the governor's role.

Most of my career had been based around large scale IT systems, and I have worked in various industries across finance, retail, food, and pharma. I have experience of working outside the UK, managing deployment of IT systems into manufacturing sites across the globe. This has given me a great appreciation of different cultures and enforced the belief that education needs to provide a world view.
