

Ed Ludlow

I joined the Governing Board in November 2019 as a co-opted Governor.

However, I first joined the Langton community in 1998, and spent my entire secondary school career at the school. Upon leaving, I was offered the chance to remain at the school as an employed IT technician. That continued on and off for 18 months, so I've experience of the school on both sides of the staff room door. I now run my own IT consultancy business, having previously held a managerial position at an internationally recognised research centre.

I was Chairman of Canterbury and District Samaritans for two and a half years, and many of the skills learnt in that position transfer to governing. That said, The Langton is my first governor position, and so I am eager to take the opportunity to work alongside the more experienced governors on the board to understand the role fully and ensure my contributions are valid and meaningful.
