

Laura Illsley

I have been a co-opted Governor since 2019. I am also the school's Finance and Business Manager and have worked at the school since April 2016. I am a member of the Resources Committee.

I have a BSc (Hons) in Accountancy and worked in a number of financial roles before moving into the Education sector in October 2007. I have worked in a number of schools/academies within their Finance offices. As part of my role, I am responsible for the school's Finances, Human Resources, Estates Management and Catering.

I served as a school Governor at my daughters' primary school for a short term as well. Having worked in Education I can bring a greater understanding of the needs of the school to the role.
